COMMAND SCREENS

Command Screens are used to give your characters special assignments. You can give them items to use or carry, position them in the party and check their status.

In the Field

One of the secrets to success in the world of the Dragons is careful management of your party. It pays to know the power and abilities of your warriors at all times and to make sure that they are ready to fight. While your party is traveling from one place to another, press the Select Button to switch to the Command Screen and take a look at how your party is doing. Here you can view the status of your party members, manipulate their items and equipment, and replace them with other characters.

The Item Selection entry in the Command Screen allows you to manipulate the items in your party's inventory.

With the Use Command, you can choose to use any of the items in your possession that apply to your current location.

This command will explain the use of any item in your inventory. Highlight the item, then press the A Button.

If you want to keep the most important items at the top of the list, you can move them by using this command.

If your item inventory is full, you can throw away items that you won't be needing by using this command.

Every warrior should be well-equipped. You can put the right weapons into the right hands with this command.

Your magic users will conjure up spells of your choosing when you use this command. The spells that can be used are shown in bold type.

As you defeat enemies in the world of the Light and Dark Dragons, the members of your party will become stronger. You can take a look at the current status of your warriors with this command. Then you can continue the fight and build them up to the next level.

With more and more experience, your warriors increase their level of ability as shown here.

EXP

The Experience line lets you know how much experience your warriors have.

HP

The current Hit Points for your warriors and their current maximums are displayed here.

AP

Magic users expend Ability Points with each spell. This shows how many points they currently have and how many they can hold.

Str.

Certain warriors have more power than others. This entry increases with each new level.

Vigor

It pays to be able to last in long battles. This line shows how well your warriors will hold up.

Agil.

This entry shows how easily and quickly the members of your party can move.

Wisdom

The members of your party vary in how savvy they are. This entry explains which ones are on the go in the brains department.

Luck

A little luck will go a long way in your quest to save the world. This entry will show who has it and who doesn't.

To put stronger characters in front and weak characters in the rear during battle, choose this command.

Use this command to rearrange your party and activate the four characters you wish to use at any given time.

The Option Command allows you to change the speed of the messages on the screen, select stereo or mono for the sound and change the button assignments. Highlight the desired entry and press A.

This command takes you back to the action. You can also press the B Button several times to return to the field.

The Fighting Scene Command Screen appears automatically with every combat situation. This allows you to use the most appropriate strategy for each battle. In some cases, it pays to charge with everything you have. In other cases, it's best to run and live to fight another day.

By using this command, you have chosen to manage the strategy of each party member individually. This is the best option in challenging conflicts.

After you choose to have a warrior attack, you can select the enemy who will be on the receiving end.

If a warrior is on the brink of losing all of his or her Hit Points, it is a good strategy to defend.

Once you choose for a magic user to cast a spell, you can select which of the available types of magic will be used.

If the time is right to use an item, you can select and operate the item with this command.

In battles which involve enemies that can be defeated with a limited amount of effort, you can use the Auto Battle Command to get rid of them in a hurry.

If you've been ambushed and your main goal is to make it to a safe place in one piece, it might be best to run away.

You can take a look at the status of your party before you make your decision on how you will fight.

Fighters in the front of the party will attack stronger. Fighters in the back will defend.

If one of your warriors is low on Hit Points, it might pay to call in a replacement from among the warriors who are available to fight.

CHARACTERS

There are a total of eight characters who will join you at some point in the adventure. They each have their own special abilities. It pays to know these attributes when you are deciding who will be in the party.

THE HERO

This member of the Light Dragon Clan will be with you from the beginning.

By succeeding in tests of strength and courage, he will learn to transform into 9 different dragon types.

NINA

This princess of the world of Dragons is one of the winged warriors. She can take to the air and carry non-flyers with her. Nina is not the strongest fighter in the group, nor does she conjure attack magic. But, she can use her magic to recover her Hit Points and those of the party.

BO

This member of the party is a creature of the forest. When he leads the group, he can use his bow and arrow to hunt down animals in the field. Press the A button to shoot an arrow. He can also guide the group through areas with tall trees.

When Bo leads the party, you can explore the woods.

Bo's bow can be used to hunt creatures for food and items.

KARN

Sometimes it pays to have a thief on your side. Karn is a thief who is also a master lock-picker. If you come across a locked door or treasure chest, and you don't have

the key, you can call on Karn to open it.

During the course of your adventure, Karn will learn to meld together with other members of your party and become a force to be reckoned with.

Gobi

This sea-worthy merchant values money over anything else. He will be able to provide weapons and other items to the members of your party for a price. He can also cast special spells for water travel.

Ox

As a party leader, Ox will also slow down the rest of the group, causing more enemy encounters.

The strongest member of the party is mighty but slow. When Ox leads the party, you can use him to break through cracked walls with one swing of his hammer.

BLEU

The mysterious indigo warrior is a master of attack spells. She is a good character to have on the offensive. Bleu can also cast spells that will take your party out of dungeons and transport the group to different destinations. She will join your party late in the adventure.

MOGU

This little warrior has big claws which will prove to be a real help when you want to go underground. Mogu is a good digger with a flair for adventure.

Dragon Statues

You will find a building that houses a statue of a dragon in every town. If you walk up to the statue, then press the A Button, you'll have the option to save your progress on the game's built-in battery.

THE ADVENTURE BEGINS

Drogen

After many years of peace, the Dark Dragons have amassed an army and have begun to take the land by force. The world needs a hero.

Camlon Castle

A band of ruthless monsters have descended upon Camlon Castle. As the hero of the Light Dragon Clan, you are the only hope for the kingdom. It is up to you to enter the castle and do away with the offending beasts.

Water of Recovery replenishes the hero.

To open a door, like this one, push the A button.

The monster of the castle is a huge toad

Nanai

A series of earthquakes is rocking the world. Travel to Nanai by night and stop the quakes by shutting off an earth-shaking machine in the town's underground.

Journey to the underground of Nanar.

Take on a powerful agent of the Dark Dragons.

Turn off the powerful earth-shaking device.

Winlan

With the earthquakes gone, you can move on to the town north of Nanai where the King has been poisoned by opening an evil letter. This is the work of a Dark Dragon wizard. As the hero sleeps, the King's daughter will take matters into her own hands.

The Hero falls asleep. Suddenly, you have control of Nina. Now she can go to the Town of Karma..

There is food in the house. Eat it! You'll recover some HP.

Forest to Karma

As Nina, the King's daughter, begins her solo journey to save her father, she encounters a host of evil forest-dwelling creatures such as poisonous spiders, and beetles. It's important to bring plenty of antidote.

Towers of Karma

There are two towers in the town of Karma. You'll end up climbing one of the towers, then crossing over a bridge to the next one. This is where you'll find the antidote for the King.

Defeat the agent of the Dragons in the first tower.

Push a button to make a bridge and cross over.

Save your progress at the top of the second tower.

Tantar and Tuntar

With the King of Winlan saved, you are free to move on to a pair of towns to the East. There are Black Dragon forces working in these towns. Take the Iron Ore to the Blacksmith and have him make a Saw.

Forest to the Dungeon

You'll need the Saw in order to cut your way into this misty, wooded area. Cut through the log in the path and move on to the Black Dragon Dungeon to search for the abducted Chief.

Dark Dragon Dungeon

The Chief is being held captive in this dingy, underground hideout. There are two passages to follow. The shortest route is peppered with hidden holes. The long route is safer, but it may take more time to complete.

The short route through the dungeon includes holes.

A guardian of the Dark Dragons waits at the end.

Bo will join your party in the Dungeon.

Romero

Once you've saved the Chief from the dungeon, you'll be free to move through the woods to Romero with Bo in the lead. The people of Romero need the Cleansing Water from the cave in the West.

In order to carry the water, find the Water Jar in the tomb at Romero.

You'll receive a map of the world in this town.

Talk to the woman in the graveyard at night.

Cave of Cleansing Water

After you get the Water Jar in the tomb at Romero, you can go to the cave in the South West and fill the jar with Cleansing Water. The Water will rid the town of zombies and you will be rewarded with the Stone Tablet.

Agua

The floating island of Agua appears when you use the Stone Tablet at the lake. This is where you will find the King Key which operates the Stone Robot north of Tantar and Tuntar. The Robot will help you bring water back to the dry river.

Use the Stone Tablet to gain access to the island.

Take on the Dark Dragon guardian of the island.

Pick up the King Key and move on to the Robot.

Stone Robot

The Stone Robot north of Tantar and Tuntar is capable of destroying the boulder that blocks the river. Enter the robot through its right foot, then use the warp chambers to make your way to the controls.

A knight blocks the path inside the Stone Robot.

Use the warp chambers to get to the top.

Use the Robot's laser to break the big rock.

Water Cave

Once you've been rewarded for bringing water back to the river between Tantar and Tuntar, you can move on to a cave that was revealed from the drop of the water line in the lake. Here, you will find a very valuable Ring.

Return to the Stone Robot

The Black Dragons have taken control of the Stone Robot and have destroyed one of the villages. It's up to you to fight back.

Dragon Training

The eruption of a volcano in the area has created pools of lava which have since dried. You can walk over the lava beds to the ancient building of the Dragons where the magic of transformation is taught. Train here.

Auria

The rich man in this town will allow you to borrow his ship if you can rescue his daughter from the safe that she is locked in. Talk to the people in the town, collect money and buy a Gold Bar. Then leave and seek out someone who can open the safe.

This man needs Vitamins
He'll give you money in exchange.

Help this character with
sore muscles and make
more money.

Find this woman's son in
the forest and collect a
reward.

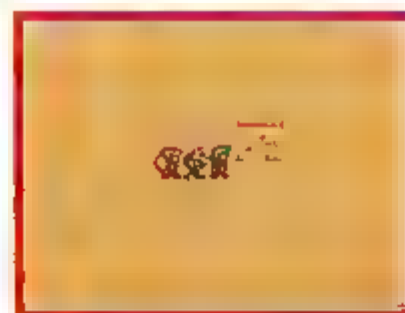

Bleak

Beyond this town is a very hot desert which you will not be able to endure unless you have the Icicle to keep cool. Give the Gold Bar to the leader of the town and he will give you the Icicle in return.

Arad

The desert town of Arad has been attacked by a giant Sand Worm. If you can defeat the creature, an old man will give a Fife to you in gratitude. This instrument will prove to be helpful in Krypt. While you're in Arad, you can stay at the Inn for free.

Krypt

The thief, Karn, is in this dark catacomb. Use the Fife to enter, then search the passages for Karn. If you try to open the treasure chests without Karn, you'll set off traps. Wait for the thief to join your party, then open the chests with him in the lead.

Don't open the treasure chests unless Karn is with you.

Go up against the evil EyeSpy of the Krypt.

Meet up with Karn and have him join your group.

Tower of Light and Dark

With Karn in your party, you can enter the Tower of Light and Dark and retrieve the Mirror and the Key of Darkness. Assign Karn to the front of your party and have him unlock the doors of the Tower.

Karn can unlock doors if he leads the party

Fight the guardian of the Tower for the Mirror.

This is the hiding place for the Key of Darkness:

Voyage

By saving the rich man's daughter, you have earned passage on his ship to Scande. Dark Dragon Pirates, knowing your plans, stop the ship in mid-voyage and send it to the bottom of the ocean.

For a Gold Bar fee, Gobi will give you a barrier-blasting Bomb.

An Octopus ambushes the party. Fight it or be washed out to sea.

You'll end up on a small deserted island

Prima

Being a Fish, Gobi can swim to the merchant city of Prima. There are many shops here which sell items at various prices. There is also a Guild Leader who is anxiously awaiting goods from Gant.

Gant

The people of the town of Gant are not able to deliver their goods because the Dark Dragons have taken most of the townspeople to Nabal to work on a secret weapon. Get the goods and take them to the Guild Leader in Prima in exchange for the Gills.

Nabal

By using the Gills, you can bring the party back together. Ox will join you in Prima and, with the power of his Hammer, he will break through the barriers in the castle. Then you can fight on and save the people of Gant.

Ox can break some of the walls in the fort that leads to the Castle.

The guards of the Castle will block your way.

The weapon collector southeast of Prima asks for a Boomerang.

Find the Boomerang inside the Krypt.

If you touch the Egg, you have to fight the GrimFowl.

When you beat the GrimFowl, they will follow you. Walk very slowly!

If the GrimFowl has followed you, it will rush into the Castle.

Battle the Boss of Nabal Castle and free the people of Gant.

For saving the townspeople, you will receive a Statue.

Wisdon

The mystic character, Bleu, is in the town of Wisdon. By bringing the statue to her, you can wake her up and get her advice. Bleu will give you an Old Egg which will destroy Dark Dragon ships if it is placed in a volcano.

This creature is one of three that you'll meet in Windom.

The Red Guardian follows the Blue Guardian.

The Green Guardian is the last and most challenging.

Deep Sea Volcano

As you toss the Old Egg into the volcano, the Dark Dragons will attack the town of Prima. When the monster hatches, it will come out of the volcano and take on the Dark Dragon army.

Gust

Once the Dark Dragons have been chased away from Prima, you can venture to the Northwest to meet an old man. This wise being will teach Karn the secrets of transformation.

Laboratory

Your quest to stop the Dark Dragons and retrieve the Oil leads to a laboratory north of Gust. The lab is full of experimental creatures, including the very strong Horn Toad.

The Laboratory is packed with strange creatures.

The enemies will shrink your party down to insect size.

Return to your normal
size and fight the Ruga-X.

Find the Frog cave and get the oil.

Watch for wild plants!
Flower-X is a tough one.

Most Toads are harmless, but this one aims to defeat you.

Grammar

Mogu is having a bad dream and he cannot wake up. The only way to bring him back to the conscious world is to get the Bolster Pillow, enter Mogu's dream, and conquer the villains inside. Seek out the Bolster in Tunlan.

Tunlan

The people of Tunlan communicate with a language of music. The only way to understand what they are saying is with the Cowl from Gramor. The only way to speak to them is with the Maestro from Gust. Talk to everyone and find the Bolster.

Mogu's Dream

When you use the Bolster near Mogu, you'll fall fast asleep and enter Mogu's dream. Mogu's emotions have separated from each other. He cannot fight without his Courage. You must find it for him.

Tower

Go to the Tower in the dream and push the red and blue switches to reach the enemies of the world and retrieve Mogu's Courage.

Zoom fights with strong spells. Watch out.

Use conventional weapons against the Moth.

Use Mogu to dig at the Dragon footprints

Village of Spring

This normally lush and green village is covered with snow and ice. It's up to you to search for a way to bring warmth back to the town.

Tower of Sky

By beating Mote in the Bad Dream Tower, you can enter the Tower of Sky and find a way to return the town of Spring to its normal state.

Carmen

Time has frozen in the town of Carmen. You'll need the Time Key in order to make the people of the village move again. Look for it to the East of the town.

The adventure to stop the plans of the Dark Dragons continues.
